

## Come See Y-12's New Credit Union Building Sunday

### City Driving Hazards Are Many And Varied

#### Alertness Is Key Word On Streets Anywhere

What's so confusing about city traffic to the non-city driver? "Chiefly — more traffic," is the answer given by the National Safety Council.

The Council listed other causes of hazards in city traffic:

Hundreds of signs here, there and everywhere: Do Not Enter, One Way, Turn Left of Island on Green Arrow Only, Yield Right-of-Way to Pedestrians, etc.

An upsetting collection of noises — roaring buses, blaring horns, shrill policemen's whistles.

"It's enough to make the visitor from the rural area give up and head for home," commented the Council.

"City driving, for the inexperienced, is pretty grim business. Rule Number One is — don't panic!"

The second rule is be alert for pedestrians, especially in the middle of the block. Pedestrians may dash from the curb without warning. Give them the right-of-way. Wait for them even though hornhonkers behind you become impatient.

Other tips to help the person not accustomed to city driving:

1. Don't follow the car ahead too closely.
2. Don't make sudden movements or changes of direction. Stay in one lane.
3. Keep your eyes peeled on what's going on around you. Keep checking the rear view mirror. It can warn you of a situation developing which may involve you.
4. Keep in mind that busy, multi-lane boulevards probably are safer than narrower streets.
5. Don't rubberneck and drive at the same time. Park if you want to look at something.
6. Watch out for suddenly opening doors while driving alongside parked cars. Even in residential areas, you may find the streets solidly lined with parked cars—so beware of children darting into the street.
7. Remember—to turn left from a one-way street it's necessary to be in the far left lane. And passing on the right is permitted in multi-lane traffic moving in one direction. So watch out for cars overtaking you on the right.

While the age-old picture of the rural resident certainly is outdated, city driving can be terrifying and hazardous to people from farms and small communities—and to city folks as well.

Driving in the city ultimately demands the same alertness that driving anywhere else does. The key words in driving are Always Stay Alert.

### Laboratory Ships 1,098 Shipments Of Isotopes

A total of 10,910 radioisotope shipments involving 425,546 curies have been shipped from Oak Ridge National Laboratory during the first 10 months of 1961. The totals for October amounted to 1,098 shipments that totaled 19,315 curies. ORNL is operated by Union Carbide Nuclear Company for the Atomic Energy Commission.

GLEAMING LIKE A NEW COIN in the November sun is Y-12's handsome new Credit Union building. The structure will be officially dedicated Sunday, November 19. Festivities get underway at 2:30 p.m., and the doors swing wide open to the public at 3. Visiting hours will be over at 5.

### Seagle's Son Named To Red Cross Board

#### Junior Executive Goes To Atlanta Conference

Attending the Youth Advisory Council of the regional board of the American Red Cross in Atlanta this past week-end was Melvin D. Seagle, son of Mr. and Mrs. James P. Seagle, 201 East Sheridan Place, Oak Ridge. The youth's father is in Y-12's Product Processing Department.

Only recently appointed to the junior regional board, Melvin has been active in Red Cross activities in high school for the past year. Last summer he attended the leadership conference held by the ARC at Greencove, N. C.

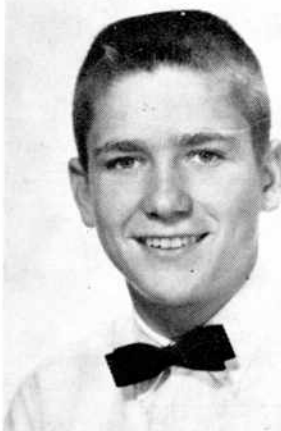

Gathering for the advisory council with leaders from other junior leaders in Atlanta, Melvin is chairman of the Red Cross high school council at Oak Ridge High. He is a junior there.

#### Other Areas Gather

Representatives from other chapters include Spartanburg, S. C.; Winston-Salem, N.C.; Davidson County, Nashville, Tenn.; Dade County, Miami, Fla.; Calzasiu-Cameron Parish, Lake Charles, La.; Asheville, N.C.; Jackson, Miss.; Caddo Parish, Shreveport, La.; Rock Hill, S.C.; Pensacola, Fla.; Savannah, Ga.; Laurel, Miss.; Birmingham, Ala.; and Gadsden, Ala.

Each board member attending the Atlanta meet was given a

Continued on Page 4

Melvin D. Seagle

THE SPACIOUS INTERIOR of the new Credit Union offices offers ample "leg-room" for calling customers. This is the first floor shown. Also in the building is an ample basement where the heating unit, addressograph machines, and lounges are located.

### Payroll Figures Over \$25 Million

More than 25 million dollars went into salaries for July, August, and September for Oak Ridge employees under contracts with the Atomic Energy Commission. The exact payroll figure for the first three months of fiscal year beginning July 1, was \$25,546,958.

In reporting the figures, S. R. Sapir, manager of the AEC's Oak Ridge Operations, said these included payrolls for the Oak Ridge Institute of Nuclear Studies, Management Services, Inc., Union Carbide Corporation and the University of Tennessee.

Carbide is, of course, the operating contractor of the three largest installations—the Gaseous Diffusion Plant, Y-12, and the Oak Ridge National Laboratory.

The four contractors employ a total of about 13,200 persons.

### Where There's A Will—There's A Good Way

The National Safety Council, in seeking ways to reduce traffic fatalities, might do well to remember a Will Rogers suggestion. It was Will who suggested that highways be open only to cars that are paid for.

### Y-12er Maskewitz Is B'nai B'rith Advisor

A distinct honor has come to the Atomic City B'nai B'rith Youth Organization. Parents Magazine has singled the organization out for its outstanding achievements in community service. A plaque listing the achievements of the BBYO is to be presented to the local organization by David Blumberg, Knoxville, who is National director of the organization.

Advisor to the local BBYO is Y-12er Mendel Maskewitz, of Research Services. He has long been active in working with young people.

Before coming to Oak Ridge he was organizer and advisor for DeMolay, a Masonic boys' order, in Vermont. The Maskewitzes live at 113 Potomac Circle, Oak Ridge. Betty, his wife, also active in civic affairs, is employed in the Central Data Processing group at Oak Ridge Gaseous Diffusion Plant.

B'nai B'rith, the Jewish benevolent fraternity, was founded in New York City in 1843.

Maskewitz

### Open House To Show Off New Handsome Space

#### Federal Credit Union Director To Preside In Dedication Rites

This is the house that jack built . . . Y-12ers' jack, that is. Every member of the Y-12 Credit Union has an interest in the beautiful new office their organization now occupies. The \$83,000 structure stands conveniently at Lafayette Road and Illinois Avenue, or as one Y-12er put it, "just about as close to the plant itself as they could get."

In special ceremonies Sunday, November 19, the building will be dedicated. Presiding will be J. Deane Gannon, director of the Federal Credit Unions, Washington, D. C. The "ribbon-cutting" will take place at 2:30 p.m., and the doors will be open to the public from 3 until 5 p.m.

Credit unions now operate in 52 countries of the world, and each year sees many more added. The democratic enterprises offer hope and success in finances to countless millions. The state of Tennessee alone has 370 Credit Unions within its boundaries, with more than 196,473 members. They represent a total savings (in shares and deposits) of \$89,185,789.

#### Owned By Members

The most significant single fact about a credit union is that its members own it. Together they operate it for their own benefit. All members share in any earnings. Only members may save, or borrow, or vote for officers. It is a self-owned, self-help enterprise.

The first credit union in the United States was established by Alphonse Desjardins in New Hampshire, and the first credit union law was passed by the state of Massachusetts. The giant leap was not taken until 1934, when the United States Congress passed the U. S. Federal Credit Union Act. The Act regulated the activities of credit unions and offered members guarantees and some type of protection.

#### Excellent Dividends

Share-holders in the Y-12 Credit Union prosper on a plus five per cent dividend each year. Individual members may borrow up to \$750 on his signature alone. Additional funds are available with co-signers. Car-financing and even home mortgage have been added to the many services

## ENGAGEMENTS

Miss Beverly Garrison

## GARRISON-STANFORD

The engagement of Miss Beverly Garrison to Mr. Charles F. Stanford, Jr., is announced by her parents, Mr. and Mrs. Merle L. Garrison, 122 Marshall Circle, Oak Ridge. The future bride's father is employed in Y-12's Research Services.

The groom-to-be is the son of Mr. and Mrs. Charles F. Stanford, 106 East Arrowood Road, Oak Ridge. He is a graduate of Oak Ridge High School, where he was president of the National Honor Society during his last year. A veteran of the United States Marine Corps, he is presently a nuclear engineering student at the University of Tennessee, Knoxville.

Miss Garrison, also an Oak Ridge High alumnus, attended Lincoln Memorial University, at Harrogate, Tenn., and also the Tennessee School of Beauty, Knoxville. She is presently employed at Gordy's Beauty Shop, Grove Center, Oak Ridge.

A holiday wedding is planned at Robertsville Baptist Church, Oak Ridge, where the Garrisons are members.

## Eye Injury Is 1961's 13th Lost-Time Mishap

The 28th period worked in Y-12 without a lost-time accident came to a close Thursday, November 9, when an employee in the electroplating shop of the Chemical Operations Division sustained injuries in and around his eye.

The employee was polishing a small part on a polishing lathe when the part caught on the polishing wheel, and was thrown upwards with force, striking him on the goggles. He suffered a lacerated eye-lid and injuries in and around his eye, and will be hospitalized for six or seven days.

This latest string of accident-free time is for 64 days, or 2,322,000 man-hours worked. This injury is the 13th suffered thus far in Y-12 during 1961.

Patriotism is more than sentimentality.

In the supermarket the other day, a man was pushing a cart through with a screaming baby in it. He kept saying, "Keep calm, Albert; don't get excited, Albert; don't yell, Albert; don't get upset, Albert." A young lady standing next to him remarked, "You certainly are to be commended for your patience with your son Albert, mister." "Are you kidding?" asked the man, "His name is Throckmorton. I'M ALBERT!"

Let's calm down, see what Y-12ers are up to—

## SHIFT SUPERINTENDENTS AND UTILITIES

Taking a vacation to finish painting inside his home started months ago is Nick Tronolone. R. F. Farmer is coon and squirrel hunting this week. On the sick and ailing list are E. M. Baird and O. K. Clotfelter, and best wishes go their way. R. B. Amos is also vacationing, but didn't say where.

The main trouble with a budget is that you have too much month left over at the end of the money.

## TECHNICAL

Special Projects had Helen Stone on a "baby" vacation last week, spending only a couple of days in Gatlinburg, enjoying the beautiful fall colors of our own Smokies. The SP's also welcome in J. W. Dowell, Jr., recent transferee into the group.

Sincere sympathy is extended to Bea Cameron, SS Control in the death of her mother, Mrs. D. C. Martin, who passed away November 8, in Normal, Ill.

## ENGINEERING

Mechanical Engineering draws the following picture. C. P. Chihasz and W. B. Hood hunted last week in South Dakota, each claiming their bag limit in pheasants. (We're sure pheasants is the right word. It looked like peasants, but since this isn't the USSR, we're sure birds was the intent of the scribe!)

Bill Forrester deer-hunted in the Tackett Creek and Cove Lake area, bagged a 2-point buck, 90 pounds, field dressed. Congratulations, deer-slayer! E. E. Robbins spent his vacation recently with relatives in Detroit, Mich. W. E. Mabe is serving his Uncle Sugar for a two week stint over at McGhee-Tyson Air Force Reserve Base. Didn't get very far, did he?

## MECHANICAL OPERATIONS

Now here's a sleepy-headed little one that is brightening the home of the R. E. Grahams. She's little Gina Kaye Graham, who

Gina Kaye

was born November 4, at the Oak Ridge Hospital, weighing eight pounds, 10 ounces. Her dad is in the General Machine Shop. Other shoppers say that B. R. Houston is welcomed onto the grounds. Sympathy is extended to R. R. Bailey in the death of his father. Vacationers include M. P. Crews, Jr., planning a deer hunt in the Tennessee woods; and R. L. Luttrell who is staying home to work on his house in Lenoir City.

Special Mechanical Production sends word from F Area that B. H. Hobby spent last week putting in time fishing, going to the mountains, and enjoying the East Tennessee scenery in general. W. T. Luffman and E. Plemons took vacations into parts unknown. A hearty welcome to E. F. Johnson, recently added to the groups supervisory crew with a badge number like this, in the three-digit class, he's really no newcomer to the plant. Martha Blevins is on a two-week vacation, incorporating a couple of short trips and catching up on some long overdue fishing and (doggonit) a whole bunch of housework and yardwork and (perish the thought) some dreaded dental appointments.

Production Control comes through with a real volume this week in that Milton Carey is welcomed aboard. (Milton's capable wife, Ruth, works at the AEC office and is serving very well as the Community Chest-Red Cross Drive publicity chairman.)

Get well wishes to Ray Fletcher who was in the hospital for a check-up. It's nice to see Carolyn Sharpe back smiling prettily, after having wisdom teeth surgery at the Baptist Hospital recently. Also glad to have Elbert Lockhart back after his little doodle-bug and his back were injured in a recent accident. Avis Collins, Tom LaRue and Tom Webber were erstwhile deer-slayers recently over in Sweetwater Valley. Ronnie Taylor, O. C. Willard, and Frank Winstead had a long trip back from Birmingham recently after THAT football game.

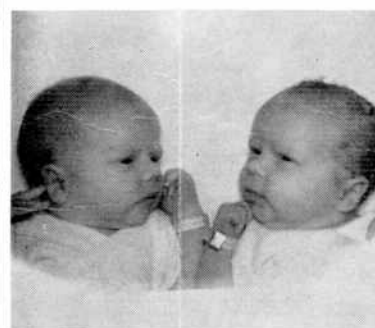

Also Kathy Mills traveled to Bowling Green, Ky., to watch her boys win their homecoming game over Morehead and to attend the usual accompanying festivities. Wayne Schrader went hunting also the other week-end. When asked if he made it to Cookeville, "Mum" is the word.

Several couples gathered at Ernie Kennedy's for steak and all the trimmings. Those eating, drinking and being merry were Jim and Bonnie Crone, Leo and Betty Scalf, Walt and Jane Goode, Pete and Irma Rinderer, and, of course, host and hostess with the mostest, Edna and Ernie.

"Dick" Dickerson spent one glorious week in Florida visiting in West Palm Beach and Fort Lauderdale. It was Michigan for the Clyde and Ada Hopkines, as they visited Ada's folks. Over cake and coffee Jerry Houser was tearfully bade farewell by numerous friends in 9212. He was also feted by a dinner party at the Holiday Inn and a going-away gift from his immediate group. He was called to serve Uncle Sam and expects duty in Germany.

Donnie & Ronnie

Kenneth & Kimberly

No, you aren't seeing double again! It seems that the air around Beta Four's Heavy Machine Shop is pretty good. Two of the boys recently became proud papas of twins. J. V. McCoy has twin boys, Elbert Donnie

Continued on Page 4

JUDSON COLLEGE HAD OPEN HOUSE recently, entertaining the cadets from Marion Military Institute. Miss Mary Elam, daughter of Chief and Mrs. W. O. Elam, Powell, is a freshman at the Marion, Alabama, school. Chief Elam is head of the Fire and Guard Department in Y-12. Mary serves Cadet H. C. Gates coffee during a break in the receiving line. She graduated from Powell High School last year.

Get well wishes are sent the following employees who were patients last week in the Oak Ridge Hospital:

Earl C. Barnes, Mechanical Maintenance; William G. Vann, Stores; W. D. Laughlin, Buildings and Grounds; T. A. Gardner, Buildings and Grounds; J. D. Frey, Sunflower Shop; Robert E. Blank, General Machine Shop; George D. DeLozier, Research Services; Kirby Duke, General Machine Shop; L. S. Fletcher, Production Control; C. S. Hutchinson, Receiving; Paul L. Patrick, Buildings and Grounds; Glenn H. Barton, Chemical; Grady Simpson, Beta Four Assembly and Forming; and Harvey J. Ballew, Guard Department.

## '17th Doll' Opens Tomorrow In Ridge

The "down-under" country of Australia is the scene of the Oak Ridge Playhouse production of "Summer of the Seventeenth Doll." The unusual drama begins tomorrow, Thursday, November 16, and will be seen again the 17th and 18th. The play will, as usual be repeated the following week-end, November 23, 24, 25.

Tickets are available at the Playhouse box office in Jackson Square, Oak Ridge, for non-subscription season ticket holders.

Safety - Security are everyone's responsibilities.

## Blevins Promoted To Supervision

Four promotions were reported effective November 1. Two of these promotions were in the Technical Division, and two were in Mechanical Operations.

Also elevated November 1 was Russel C. Blevins, instrument

R. C. Blevins

mechanic in the Electrical Department of the Maintenance Division. Blevins, a native of Dayton, Tenn., has been made a supervisor in Electrical. A veteran of the U. S. Navy, Blevins came to work here September 20, 1954. He attended schools in Rhea County, and also the Capital Engineering Institute, Washington, D. C. The Blevins live at 197 S. Purdue, Oak Ridge.

## 'Our Nearest Star' New AEC Film Available

"Our Nearest Star" is the name of the latest motion picture film available for loan from the AEC here.

Describing the development of the isotopic power system which recently was placed in orbit aboard the Transit Four-A navigation satellite, the 12-minute film, in 16mm color, is available from the Public Information Office, AEC, Oak Ridge.

The power unit was developed as part of the AEC's work on Systems for Nuclear Auxiliary Power (SNAP).

# Football Always For Men Only

Tommy Cook's Prowess Takes Colts' Uniform

SHOULDER-PADS, FACE GUARD and all. That's the equipment worn by little Tommy Cook as he models the Baltimore Colts' uniform he won recently.

The Baltimore Colts will have to wait maybe 15 years for this one! Six-year old Tommy Cook recently won the Ford Dealers National Football League 1961 Punt, Pass and Kick contest held in Lenoir City.

Shown in the Baltimore Colts' uniform which he took as first prize, Tommy is the son of J. P. Cook, in Y-12's Chemical Department. Winning in this competition makes him now eligible for the regional contest to be held later. And, since football is a man's game, it's only logical that this six-year old should be in on it!

Ride wanted or will join car pool from Rockwood to North Portal, straight day. A. J. Harvey, plant phone 7587, home phone Rockwood EL 4-0592.

Will join car pool from Woodland section, Oak Ridge, to North Portal, straight day. H. C. Hutson, plant phone 7993, home phone 7993, home phone Oak Ridge 483-5585.

Ride wanted from vicinity of the University of Tennessee to Central Portal, straight day. W. J. Towler, plant phone 7-8353, home phone Knoxville 522-8946 or 525-7692.

Will join car pool from Cumberland Estates, Pleasant Ridge section, to any portal, straight day. E. F. Nickle, plant phone 7-8895, home phone Knoxville 523-4309.

Car pool members wanted from Clinton to North Portal, straight day. R. C. Horton, plant phone 7062, home phone Clinton 457-2622.

Ride wanted or will join car pool from Pallas Road, Oak Ridge, to West Portal, straight day. Lucy Parker, plant phone 7301.

Will join existing car pool or help form new one from Clinton to West or Central Portal, straight day. P. E. Arnold, plant phone 7-8465, home phone Clinton 457-1817.

Riders wanted from Kingston to North Portal, straight evening shifts (4:30 p.m. until 12:30 p.m.). H. L. Hamilton, plant phone 7696, home phone Kingston FR 6-5382.

Riders wanted from Concord, Farragut section via Lovell Road, to any portal, G Shift or part-time ABCD shifts. J. E. Bledsoe, plant phone 7074, home phone Knoxville 966-4951.

Leave your job in Y-12. At home, talk about something else.

# Guttersnipes Win 3 Points In Kingston

The Kingston League for Carbide bowlers last week saw the Y-12 team, the Guttersnipes maintain their status quo in second place by nipping the Alley Cads for three points. The league leaders from the Oak Ridge Gaseous Diffusion Plant's Rookies team also took three points from the ORGDP team, Sparemen.

Top man of the week was Lloyd Domer, Rookies, sweeping the board with scores of 258, 284, 602, and 684. Handicap scoring saw the league leaders again with 1012 and 2831 games.

League standing follows:

Team	W	L
Rookies	31	5
Guttersnipes (Y-12)	19	17
Could Bes	18	18
Head Pins	14	22
Alley Cads	13	23
Sparemen	13	23

# Dry Hides Are New Leaders In D League Alley

Y-12's hopes in Tuesday's D League for Carbide Bowlers brightened considerably last week as the Dry Hides edged in to first place by virtue of their three point victory over the Hephex team from Oak Ridge National Laboratory. Y-12's other team in the league split two points with ORNL's Kemix team.

The Dry Hides posted a top handicap series score of 2788, while the Rodders played a 2946 score.

League standing follows:

Team	W	L
Dry Hides (Y-12)	13	5
Gassers	11	7
Termites	11	7
Sh-Booms	11	7
Kemix	11	8
ORNLs	10	8
Beryls	9	9
Alley Rams	9	9
Pin Heads	8	10
Rodders (Y-12)	7	11
Hephex	4	14
Guttersnipes	2	16

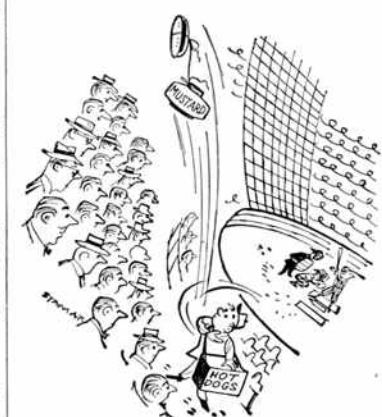

# Boar Takes Down From Last Year

Only 52 boars were taken out of Tellico Wildlife Management area during October. The largest tusk weighed 226 pounds. This compares with 89 porkers a la wild state taken in the same period for 1960.

The two popular big game animals will continue to be hunted during November. No-quota bear and boar hunts will take place on the reservations again November 27 and 28.

# 'Sometimes I Wonder' What Is Most Popular

Almost all critics and polls alike agree that Hoagy Carmichael's "Stardust" is the most popular popular song ever written. It has been recorded more than 300 times, arranged in 46 ways, and translated into 46 languages. In fact, "Stardust" is perhaps the only song ever offered — in different versions — on both sides of a single phonograph record.

THE STRIKING RESEMBLANCE OF FOUR GENERATIONS of Hilton men is borne out in this recent photograph. Merle B. Hilton, in Y-12's Mechanical Engineering, second from left, proudly sits with his father, Mr. Roy Hilton, and his son Stanley Hilton, with his two sons, Stan, 3; and Mark, 2. All the Hiltons live on Sims Road, Knoxville. The elder Hilton lives at 5010 with a sister; Merle lives at 5006; and Stanley lives at 5005. "None of us live very close to each other, however," explains the middle Hilton. "Sims Road has a funny numbering system."

# Y-12 22-Men Take Independents In Last Week Shoot

The 22-Rifle League for Carbiders is deadlocked with three of the four teams in first place. This came about last week by virtue of the Y-12 aggregation's defeat of the Independents. Jack Huff was top gun for the Y-12ers with a total of 290 scratch scores. Ed Brady followed with 284, and Bert Searles fired 283. Dave DeWalt, Independents, was top dog for the losers with a total scratch score of 289.

Y-12's total scratch score was 1132, compared with the Independents' 1111.

League standing follows:

Team	W	L
Y-12	2	1
ORNL	2	1
Independents	2	1
ORGDP	0	3

# Mink Coat, M'Lady; Go Out And Trap It!

If the high price of a mink coat or a beaver trimmed ensemble keeps you from fulfilling the heart's desire of the little woman, you now may be able to afford such luxuries. A \$2 hunting and trapping license enables you to go into business for yourself. The trapping season opens today in Tennessee. Trappers may take without limit such fur-bearing animals as mink, beaver, muskrat, opossum, skunk, weasel, bobcat, and groundhog.

On a statewide basis, the season remains open until January 25, 1962, with the exception of beaver. Beaver trapping is limited to middle Tennessee counties bordering on Kentucky Lake and the West Tennessee counties that lie between that lake and the Mississippi River.

# Audubon Tour Has California Hills

The beautiful Shandon Hills, in Central California, will be the subject of the second Audubon Screen Tour tonight, Wednesday, November 15, at Jefferson Junior High School, Oak Ridge. The program is slated to begin at 7:30.

The picture will be shown and narrated by Eben McMillian, California rancher, upon whose farm the film was made. Tickets for non-season ticket holders will be available at the door.

# Calling All Referees, Calling All Referees

The Recreation Department needs basketball referees for the season's play. League games are scheduled for Mondays and Thursdays in Oak Ridge. Anyone wishing to referee in the games should call Recreation at extension 7109.

# Rollmasters Lose 3 To Cast-Offs

Despite Ron Taylor's High Single Scorings

Ron Taylor, Rollmasters, took single honors in the Wednesday League for Carbide Bowlers last week with his single scratch game of 225, and his handicap single one of 250. His top bowling, however, did not protect his team enough. They sustained a three-point loss to the Oak Ridge Gaseous Diffusion Plant team, the Cast-Offs.

The Rollmasters still maintain a healthy standing in the 5:45 p.m. league. They are presently tied for fourth place, only five measly points away from top berth.

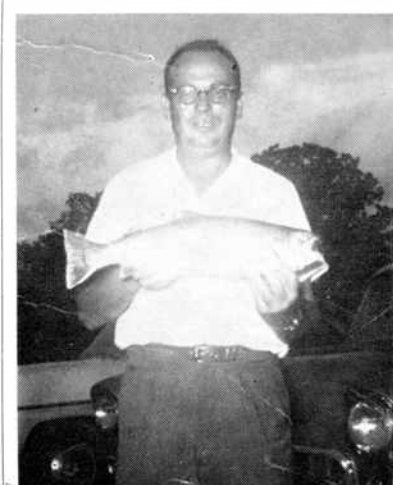

League standing follows:

Team	W	L
Head Pins	27	13
Sand Baggers	25	15
Pirates	24	16
Cast Offs	22	18
Rollmasters (Y-12)	22	18
Planners	21 1/2	18 1/2
Woodpeckers	20 1/2	19 1/2
Waco's	19	21
Wallops	17	23
Mix-Ups	17	23
Lab Demons	14	26
Rookies	11	29

# Ping Pong Ladder Set At Wildcat Den

Ping pong addicts are invited to join the Table Tennis Ladder which gets underway at the Wildcats' Den, Oak Ridge, Monday, November 27. The three-plant affair will take place every Monday night during the winter, beginning at 7 p.m.

Those wishing to enter may do so by telephoning Recreation, at telephone number 7109. Excellent tables, balls and paddles are furnished to the contestants. All Carbide employees are eligible in the singles play.

RAINBOWS don't get much bigger than this, not in these parts, leastwise. John Orr, Process Maintenance, entered this beauty in the annual Fishing Rodeo. Says he caught it with a Dare Devil lure in the tailwaters at Chilhowee.

# Skeet League Is Tied Three Ways

Handicap Firing Ties Bailey, Patton, ORNLite

The crest that Y-12ers have been riding in the Skeet League for Carbiders got a little crowded in the shoot-outs last week, as Bill Brundage, of Oak Ridge National Laboratory, got into the first rung sharing it with Y-12's own M. L. Bailey and F. S. Patton. This indicated high handicap scoring. High scratch firing, however, went to Fred Welfare with a fine 137, followed by Brundage's 136. The three ties in handicap firing were set at scores of 144 each.

The next shoot is scheduled for this Sunday, November 19, at the Oak Ridge Sportsman's Association field in Oak Ridge.

The standings listed below indicate up-to-date shooters with a total of six rounds each. The starred (\*) shooters have incomplete scores.

SCRATCH

Fred Welfare, Y-12	137
Bill Brundage, ORNL	136
K. W. Bahler, ORGDP	130
M. L. Bailey, Y-12	129

# Turkey Shoot Set For Tomorrow By B Shift

B Shift couldn't let the other shifts get a turkey shoot over on them, so they plan one tomorrow, November 16, at the Oliver Springs Airport. Hams and turkeys are the holiday fare for the marksmanship feats. Classes in the 12-16-20 gauge shotgun are open, as well as open sight rifle shooting.

Ammunition is furnished at the site. Firings are 50 cents each. There is free coffee on the grounds, and doughnuts galore. Door prizes will round out the event, giving a chance to those who don't "dead-eye" in on a fine turkey or ham. First firings begin at 10 a.m.

# Vols Find New Use For Corn In Cans

There's a new use for corn in the Volunteer State. Despite the general idea that all Tennessee corn comes in fruit jars, trout fishermen have come up with a new twist. The latest use is as bait to catch trout. Tennessee fishermen have found that ordinary canned corn is a preferred food of the colorful but hard to catch fish.

IF WINTER COMES, can Spring be far behind? All set for the blasts of blizzards are the winners of the October Poster Contest. George W. Flack, superintendent of Industrial Relations, presents William Rogers his first prize of an electric blanket. Charles C. Jones happily accepts his electric heater from Clarence Johnson, head of the Safety Department.

## October Poster Winners Happy; Fine Electric Prizes Awarded 2

Winners in the October Safety Poster Contest are announced as William A. Rogers, Process Analysis; and Charles C. Jones, General Machine Shop. Rogers took the first prize with his fine idea on holding safety meetings. His award, and first choice, was the electric blanket.

## 9706-1Aers' Party Set For Saturday

Kicking the holiday season off early in big style will be the crowd down at Building 9706-1A. They have scheduled the first seasonal affair with a dinner-dance Saturday, November 18, at the Holiday Inn, Oak Ridge.

On hand for the party will be the three departments occupying that premise, namely, Statistical Services, Tabulation Services and SS Control. More departments and divisions already have plans well underway for dances, dinners, and other events to usher in the holidays.

### LOOKED LIKE THE DEVIL

Lean and cadaverous-looking, Nicolo Paganini, called the greatest of all violinists, was thought in his day to have obtained his wizardry from Satan himself. Once he was compelled to publish letters from his mother to prove he was born of human parents.

Jones then took the other award, an electric wall heater. He said it was the one he would have chosen had he been the first place winner, so everyone was happy.

Meanwhile, Safety says that many good entries are already in for the November judging. The theme for November's race is "Radiation Safety and Evacuation Procedures." The deadline for entries in this particular contest is Thursday, November 30.

Rogers' excellent poster idea is shown alongside. His drafting experience in the design section of Process Analysis makes his entry readily adaptable for the January theme. Members of the Safety department are emphasizing, however, that it was his idea that capped the prize, not his fine drawing. Artistic ability is no criterion for entering the poster competition. An employee may even send along a written description instead of a sketch.

### Any Employee Eligible

Any employee in the Y-12 area is eligible to participate in the contest, including members of the families of every employee. The name, department, badge number of the entrant, or relation to an employee must be shown on each entry.

The timely topic of radiation safety, as well as evacuation procedures, should offer employees many vents for their imaginative talents.

### Used On Bulletin Boards

The winning poster for the October race will be used in plant bulletin boards for January, as every first-place winner is used.

So let's get those ideas in to Safety early. Judging is done the first day of every month. The fine prizes of an electric clock, and a giant, electric fry-pan await the two lucky contestants for this month.

Continued From Page 2  
and Delbert Ronnie; and H. E. Reesor and Bonnie (formerly of Cashier and Travel) have a boy and a girl, Kenneth and Kimberly. The Reesor twins were born November 2, in Knoxville's Presbyterian Hospital. With the rush of twins around the grounds, folks are wondering if anyone wants to try for three?

Also down in Beta Four there is good representation in the Air Force now. Three men left recently for the Air Reserve, George Byrd, Floyd Bradburn, and Conrad Strike. Good luck, good luck! . . . J. C. Montgomery is back after being out sick quite a spell. Looks real chipper, too!

Most brides want their silver to be sterling and their husbands stainless.

### INDUSTRIAL RELATIONS

Employment recently hosted a farewell party for Bob Worrell, who flew away in a jet to serve in the Air Force. (The Bulletin never did get a story on his week-end flying either. Seems he frequently took fascinating trips to the West Coast and other parts). The festivities took place at the Elks Club, with Bob's cohorts and friends assembled in his honor . . . Welcomed into Employment are Alice Dickson and Mary Ann Attkisson.

The Cafeteria has its maitre de George McNamee on vacation last week browsing around in New Orleans, and also visiting his mother in Bartow, Fla. . . . David Treece went hunting around the fields and woods near Morristown.

Fire and guard folks are welcoming Lieutenant Hasting back to work after his bout with surgery.

When asked why she wasn't married, the spinster replied, "I have a dog that growls, a parrot that swears, a goldfish that drinks, a fireplace that smokes, and a cat that stays out all night. What do I need with a husband?"

## Chemical Society Sets Lind Series

The S. C. Lind Lecture Series will be presented tonight and Thursday, November 15, 16, by the East Tennessee section of the American Chemical Society. Dr. Peter Debye, professor emeritus of chemistry at Cornell University will speak at both lectures.

Tonight's meeting will be held at the Holiday Inn in Oak Ridge. Dinner is scheduled for 6:15 p.m. Reservations may be made by calling Ben Benjamin, plant extension 6973. Dr. Debye will speak in Room 18, of the Oak Ridge Institute of Nuclear Studies training building at 8 p.m. His topic will be "Scattering of Radiation and Interference."

Thursday's meeting will be held at Dabney Hall, at the University of Tennessee at 8 p.m. Dinner is slated for the Faculty Club at 6:15 p.m. Reservations for this dinner may be had by calling Knoxville 524-2981, extension 308. Dr. Debye will speak on "Critical Opalescence."

Interested guests and members are invited to both lectures.

## 'Body Counting' Film Shown At HP Meeting

The East Tennessee Chapter of the Health Physics Society will meet next Tuesday, November 21, in Room Number 18, of the Special Training Building at the Oak Ridge Institute of Nuclear Studies. The meeting is scheduled to get underway at 8 p.m. A film on "Whole Body Counting" will be shown, and a report given on the progress of the 100-man shelter project.

All members are urged to attend this meeting.

A GROUP OF FELLOW "SHADS" visit with their old buddy, Luke R. Stansberry, guard, who retired October 31. Recuperating at Oak Ridge Hospital after eye surgery, the retired Stansberry is flanked by Paul Surber and David C. Brown. At back, from left, are Glenn A. Archley, Alfred T. Barger, and Sammie Venable. Emmett Moore was in the visiting clan also, but it was his turn at the camera when the above photo was made.

## Open House

Continued From Page 1  
of the Y-12 organization.

Members of the organization are urged to attend the Open House festivities Sunday, and the general public is invited also. As Lorena Causey, Treasurer and Manager of the organization puts it, "We feel that every member will be as proud of the building as we are."

### Ample Room

The spacious reception desk offers ample room for many customers at one time. Looking out the full-length windows the mountains of East Tennessee abound to make the interior decorating of the office even more attractive. Modern, full-length draperies give the giant windows an added attraction.

For the first time, since the early days of the organization, all the paper-work can be now done under the same roof. It was back during the war years that the "bookkeeping" end of the business had to be separated and moved uptown.

All Y-12ers, members of the Credit Union or not, will miss a golden opportunity to tour the handsome offices if they fail to respond to the invitation. Again, that's Sunday afternoon, from three until five. See you at the Credit Union!

## Seagle's Son

Continued From Page 1  
project to complete.

### Activities Varied

Junior Red Cross activities are many and varied. First aid classes, aids at the Blood Bank, water safety programs are some of the programs involved in the junior work.

The young man's father, James P. Seagle, is an 18-year veteran in Y-12. The Seagles have one other son, Ronald E. Seagle, in the United States Navy, stationed in San Diego, Calif.

"Kind of a morning that makes you glad you're half alive, isn't it?"

SHOWN WITH HIS handsome power saw, Guard Luke R. Stansberry, one of Y-12's October retirees, sat up long enough for his enjoyable visit from fellow guardsmen last week. The Y-12 guard had more than 17 years service in Y-12 when he retired last month. Most appreciative of his gift, Stansberry asked to be remembered to all his Y-12 friends.

## Y-12ers Celebrating 15, 10 Year Anniversaries

Congratulations to the following Y-12ers who will observe 15 and 10-year anniversaries with Carbide within the next few days:

### 15 YEARS

Taylor S. Arnold, Chemical, November 17.  
Clyde W. Schaffer, Stores, November 19.

### 10 YEARS

Coy N. Crowley, Electrical, November 15.  
John U. Hicks, Stores, November 15.  
Lon W. McNeil, Mechanical Engineering, November 16.  
Irvin G. Speas, Engineering Division, November 19.  
Glenn H. Barton, Chemical, November 19.  
Clade Allmon, Jr., Salvage, November 19.  
Nathan G. McNeil, Receiving, November 19.  
Elmo P. Taylor, Sunflower Shop, November 19.  
James F. Brown, Product Processing, November 20.  
Mendel Maskewitz, Research Services, November 20.  
Olen C. Hutchison, Alloy Shop, November 21.

### DIFFERENCE OF OPINION

Thomas Jefferson once wrote, "When angry count ten, when very angry an hundred." Mark Twain differed with this philosophy, "When angry count four; when very angry, swear."
